Job Creation Data Explanatory Notes

If the change (gain/loss) in the number of full-time permanent employees as of the date of the report plus the number of full-time permanent employees anticipated to be hired after date of the report does not equal the number of full-time permanent employees stated in the Agreement that would be created at the site as a result of the assistance, then please explain why not:

At the time of the agreement John Thomas, Inc. (JTI) had our operation in a leased building in Dieterich. The building was sold and JTI had to find a new location. A developer planned to build a new building for JTI to lease in the new industrial park where we planned to expand our operation. The estimated construction costs escalated and the proposed rent amount for the new building was beyond our budget. We found an available affordable facility in Effingham and moved our operation there.
