### Job Creation Data Explanatory Notes

If the change (gain/loss) in the number of full-time permanent employees as of the date of the report plus the number of full-time permanent employees anticipated to be hired after date of the report does not equal the number of full-time permanent employees stated in the Agreement that would be created at the site as a result of the assistance, then please explain why not:

The Company has experienced economic headwinds that has necessitated a reduction in force. We did recently sign our a new Chicago lease that we will move in to in 2025. We hope to grow in the future and add jobs back but for the time being, I have marked as no employees to be hired in the future as it is difficult to forecast when that will occur.
