Job Creation Data Explanatory Notes

If the change (gain/loss) in the number of full-time permanent employees as of the date of the report plus the number of full-time permanent employees anticipated to be hired after date of the report does not equal the number of full-time permanent employees stated in the Agreement that would be created at the site as a result of the assistance, then please explain why not:

Due to capacity of St Charles facility we needed to transfer our medical assembly business to a new facility. Therefore the number of Employees at the Project Site at the time of Application was 0, however, we relocated 38 employees to new project site West Chicago facility. In addition we were able to create more jobs then required.
