Job Creation Data Explanatory Notes

If the change (gain/loss) in the number of full-time permanent employees as of the date of the report plus the number of full-time permanent employees anticipated to be hired after date of the report does not equal the number of full-time permanent employees stated in the Agreement that would be created at the site as a result of the assistance, then please explain why not:

Due to continued financial headwinds within the biotech industry, and further corporate restructuring, the anticipated creation of 50 new jobs has been delayed. We hope that future growth within our Genomics and Companion Diagnostics services in 2026 will enable us to meet the job creation threshold.
