#### Job Creation Data Explanatory Notes

If the change (gain/loss) in the number of full-time permanent employees as of the date of the report plus the number of full-time permanent employees anticipated to be hired after date of the report does not equal the number of full-time permanent employees stated in the Agreement that would be created at the site as a result of the assistance, then please explain why not:

The company exceeded the job creation requirement in the original agreement due to business growth and increased staffing needs. As a result, total employment surpassed the number of jobs initially committed under the agreement.
